# Ankit Borkar

Achievements-driven Java Developer with six months of experience in Java programming and a strong interest in web development.

I am a recent graduate from the RTMNU Nagpur University, Maharashtra with a Bachelor of Computer Application in English. I have experience working as Intern at Asterisc Technocrat Pvt Ltd and have excellent communication skills. I am looking for a position in Java Developer.

## WORK EXPERIENCE

### Java

(August 09, 2022 - November  
11, 2022)

### Developer

As a Intern

I am a java developer intern at Asterisc Technocrat Pvt Ltd for 6 months experience. I have gained knowledge in different areas of Java development such as J2EE, Struts, Hibernate, and Spring. I have also worked on web technologies such as HTML, CSS, and JavaScript. I am responsible for the development of new features and maintenance of the existing ones. I have also gained knowledge in the area of testing and have written test cases for the application.

## EDUCATION

### Prerna College of Commerce

A

Bachelor of Computer

Application, Reshimbag, Nagpur

## PROJECTS

### Student Management Sys

The student management system is a console application written in C language. This system can be used to manage student records in a school or college. The system can add, edit, and delete student records. The system can also search for student records by name or ID.

### Banking Console Application

Banking console application using c++ is an application that allows users to perform various banking operations such as creating and managing accounts, transferring money, paying bills, and more. The application is designed to be used by both individuals and businesses.
